TOBACCO IN HOLLAND

May Be Shipped Via Rotterdam to Germany and Austria-Hungary from Bryan.

That tobacco exported from the United States and consigned to Germany and Austria may be safely shipped through Holland is the substance of an opinion expressed by the British ambassador at Washington to Secretary of State, W. J. Bryan, according to a telegram received from the latter by Congressman Joseph W. Burns on Saturday. It had already been publicly announced that the British government had declared it to be its policy not to interfere with shipment of tobacco on neutral vessels, regardless of their destination, tobacco not being classified as contraband of war. But what was regarded as a serious problem was that transporting tobacco to Germany and Austria, notwithstanding the British government's declaration, the German vessels which have heretofore plied between New York and Bremen and by which tobacco has been shipped to Germany being out of commission. Holland had stipulated as a neutral power not to permit the transportation of commodities through its territory into Germany and this stipulation was considered an obstacle in the way of shipping tobacco to Germany via Rotterdam and through Holland, but in view of the message received by Mr. Burns from Secretary Bryan on Saturday, it is believed it will be practicable to ship tobacco by this route to Germany. Of course if it can be transported to Germany it can be shipped through Germany to Austria. A large part of the tobacco produced in the black patch of Tennessee and Kentucky is sold to Germany and Austria.

The telegram received by Mr. Burns from Secretary Bryan on Saturday is as follows:

Washington, D. C., Nov. 13, 1914.—Joseph W. Burns, M. C., Nashville, Tenn.: British ambassador this city informs department that tobacco not being contraband, his government has no intention of interfering with shipments of neutral vessels to any of the countries of Europe. British allies also rank tobacco as non-contraband. No apprehension that shipments of tobacco through Holland will experience difficulties in view of attitude of belligerents.

W. J. BRYAN, Secretary of State.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. SALOONS OPEN AFTER

A BRIEF CLOSING.

Nicholasville, Ky., Nov. 16.—The saloons opened here this morning after being closed about three months. They had taken out license for one year, after the county had voted dry, pending a contest decision. When the decision was rendered in favor of the dries the saloons closed and demanded a rebate on their license for the unexpired time. The Mayor of the town refused. A similar case, which has been pending in the Supreme Court, was decided a few days ago. The court ruled the saloons had a right to run their time out. This will allow them to run here until April, 1915.

Kincheloe Led.

Returns from the second district gave Beckham a plurality of 1,224; Camden, 8,873 and Kincheloe 4,423. Beckham fell behind principally in the counties of Christian, Henderson and Daviess where prohibition elections had recently been held, and while their blood was hot, some democrats scratched him and voted for his opponents. It was very gratifying to his friends to know that Dave Kincheloe led the ticket in the district.—Hustler.

Rheumatism

Just put a few drops of Sloan's on the painful spot and the pain stops. It is really wonderful how quickly Sloan's acts. No need to rub it in—laid on lightly it penetrates to the bone and brings relief at once. Kills rheumatic pain instantly.

Mr. James E. Alexander, of North Harpswell, Me., writes: "Many strains in my back and hips brought on rheumatism in the sciatic nerve. I had it so bad one night when sitting in my chair, that I had to jump on my feet to get relief. I at once applied your Liniment to the affected part and in less than ten minutes it was perfectly easy. I think it is the best of all Liniments I have ever used."
